

## Do you share our ethos?

We believe in producing fresh, high-quality produce that tastes delicious and doesn't damage the environment thus using wood biomass burners to generate heat, as an alternative to fossil fuels.

Last year we installed a new biomass boiler on our Brierley site near Leominster, Herefordshire. We aim to increase our energy independence and reduce pollution.

We are pleased to offer the opportunity for the following full-time, permanent vacancy:

### Boiler Operator

As a Boiler Operator you will be performing frequent inspection checks and carrying out regular maintenance on our Biomass boiler and other associated equipment.

You will replace defective parts as needed and respond to emergency situations when needed.

You will be working in a small team supported by the Production Manager.

The main duties and responsibilities include:

- Physical management of chip stockpiles & loading fuel into the receptor
- Servicing, fault finding and repair
- Carry out service and maintenance work
- Develop and maintain supporting documents
- Comply with all Health & Safety requirements

Applicants will possess the following skills and behaviours:

- Knowledge of commercial/industrial boilers
- Experience of fault finding
- Basic understanding of PLC control systems
- FLT/Telescopic qualification desirable

The hours for this position will vary but will not exceed 48 hours averaged over a 17-week period. Working days will be agreed on a rota basis with the Production Manager and will include weekends (5 days out of 7).

Our people are core to our business, and we are proud of providing a working environment that allows people to grow and develop in all areas of the business. The atmosphere at S&A is fast paced, exhilarating and rewarding.

We offer a competitive salary, 33 days annual leave, exclusive high street discounts via our benefits hub and scope to uncover your potential with a rapidly expanding, independent business.

A full Job Description is available upon request.
