Excellent Opportunity in our IT Department

S&A Group is the UK's largest independent strawberry grower. The Group, which also has berry growing operations overseas and grows early UK asparagus, uses modern and innovative growing techniques to drive and support its thriving year round soft fruit import business. Our principal customers include the major multiple food retailers.

We are excited to offer the opportunity for the following full-time, permanent vacancy within our IT department, based in Marden Hereford:

Business Systems & MI Engineer

The successful candidate will have hands-on knowledge of SQL management and development, the ability to interpret user requirements and issues into solutions and develop productive relationships with both internal customers and suppliers.

Responsible for maintaining Business Systems, Databases, Management Information Systems and related data. Running proactive technical projects under the supervision of the Business Systems Manager to meet business needs.

You will Keep abreast of the Business Systems market and best practice, advising senior management and suggesting and managing the adoption of best practise where relevant in areas pertaining to business systems and management information.

You will maintain 3rd party supplier relationships and provide 3rd line and on call support for systems and data related issues.

A full Job Description and Person Specification are available upon request.

Please apply either in writing to Daniela Dedelyanova, Recruitment Manager, S&A Group, Brook Farm, Marden, Herefordshire HR1 3ET or by e-mail to vacancies@sagroup.co.uk and attach an up-to-date CV.

The closing date for applications is 12th May 2017.   **S&A Group is an Equal Opportunities Employer**
