

Excellent Opportunity in our Engineering Department

Do you want to come to work every day knowing that by being effective in your position, you will be doing good for the UK consumer by increasing the consumption of healthy fresh produce?

Working with perishables, means every day is exciting. Each year, every crop brings its own personality. Mother nature can be unpredictable & the challenges mean boredom is not an occupational hazard.

The very nature of fresh produce guarantees frequent issues that demand instant action to resolve. However, you can feel confident that there is no better place to be, you will be working with good people, people that have genuine passion, tenacity and dedication to support us in our version of becoming a flagship UK grower.

We are excited to offer the opportunity for the following full-time, permanent vacancy at our farm in Faversham, Kent:

MULTI SKILLED ENGINEER

As a Multi Skilled Engineer you will maintain all site equipment and facilities to a 'World Class Standard' by ensuring safe working practices are adhered to at all times. You will also carry out planned & reactive maintenance work of both mechanical and electrical requirements within timescales to a high standard ensuring machine/process up-time meets business requirements.

Working hours will be on a rota basis and could operate between the following shift patterns: 0600-1400 / 14:00 - 22:00 / 0800-1700 with the requirement to be on call one in three weekends.

The main duties and responsibilities include:

- Pro-active contribution to risk reduction within the department
- Compliance with British Standard Legislation & Health and Safety at Work Act 1974
- Maintenance of inventory & stock control
- PPM and breakdown assistance
- Mechanical and electrical fault finding and modifications
- Assisting with ongoing development of machinery and site facilities
- Work will be an even mix of preventative and reactive maintenance with a large emphasis on fault finding and diagnostics

The successful applicant will have:

- 18th Edition or equivalent apprenticeship experience (engineering)
- Strong multi-engineering skills (essentially mechanical and electrical)
- Good mechanical and electrical knowledge
- Ability to work calmly and effectively ensuring safety first
- Ability to work under pressure
- Effective communication & engagement skills when communicating at all levels
- Basic PC literacy (MS Office / Word/ Excel / Outlook)
- Previous experience in a fast-paced engineering environment would be a distinct advantage

We offer a competitive salary, 33 days annual leave, pension contributions and scope to uncover your potential with a rapidly expanding, independent business.

A full Job Description is available upon request.
